Inspired by modern detective dramas, CSI Experience will turn your team into high-tech investigators, as they work together to find the suspect of a brutal crime.

Teams will be provided with evidence, facts, statements and more, in order to piece together clues and find out just how deep this crime goes.

In true TV drama fashion, there are plenty of twists and turns, as your group uses crime investigation and evidence-gathering techniques to eliminate possibilities and get closer to the truth. Using a mixture of analogue and digital tools and evidence, it will take teamwork to find out how everything is connected.

Intense, thrilling and challenging, CSI Experience will have everyone feeling and acting like a Detective before the day is through!
